Inhalte	<p>This is a seminar for participants who want to discover the overlay in an urban environment in all its complexity, to get new and deeper insights about Berlin – for foreigners AND locals.</p> <p>We'll explore different topics all over Berlin, visiting sites, adding background information on location, for example from Wannsee to Dahlem, in Mitte and Charlottenburg, Friedrichshain-Kreuzberg and Wedding, Pankow and Moabit, Marzahn and Neukölln. Scanning through libraries, the internet, collections and museums, walking and looking, doing interviews and taking pictures to get to the core of the different subjects. Digging into the material – in a team or individually - will provide a better understanding what Berlin is about. At the end of this seminar you'll be a trained researcher, a scout who can read divers traces in the city. The literature list gives you an idea about the content in the seminar.</p> <p>No problem if your English isn't perfect: the content of your research & the presentation is important for everybody in the group, learning from your curiosity and interest.</p>
